Census 2000 Summary File 1 Highlights

Recently released Census 2000 data reveal the following characteristics of the State of Kentucky:

- Kentucky's population is "middle aging," with a median age (meaning half the population are younger and half are older) of 35.9 years, up from 32.9 years in 1990.
- Kentucky's 65+ population grew from 466,845 in 1990 to 504,793 in 2000, an 8.1% increase. Seniors as a percent of the total population, however, declined from 12.7% to 12.5%.
- During the 1990s, the number of Kentucky housing units continued to grow (from 1,506,845 to 1,750,927), while the average household size declined from 2.60 to 2.47 persons.
- The number of children under 18 increased from 954,094 in 1990 to 994,818 in 2000, a 4.3% increase. However, children as a percent of the total population declined from 25.9% to 24.6%.
- Hispanics or Latinos (of any race) comprised 1.5% of Kentucky's population—59,939 persons in 2000.
- Kentuckians in group quarters (college dorms, prisons, nursing homes, etc.)

The Kentucky State Data Center will host a day-long conference, Nov. 29, 2001 at the Holiday Inn Capital Plaza in Frankfort. Topics will include reviews of new Census 2000 data products, a peek at future data releases, and information on how to analyze, interpret, and use the numbers. Visit our website, cbpa.louisville.edu/ksdc in early October for more information.

increased from 101,176 in 1990 to 114,804 in 2000.

- Female- and male-headed households with children and no spouse present accounted for 21.4% and 5.9%, respectively, of all such family households.
- The average family size is 2.97 persons, down from 3.08 persons in 1990.
- 90.8% of all Kentucky housing units are occupied; 9.2% are vacant.
- Kentuckians are slightly more racially diverse:

Total population of one race	3,999,326
White	3,640,889
Black or African-American	295,994
American Indian / Alaska Native	8,616
Asian	29,744
Native Hawaiian / Other Pacific Islander	1,460
Some other race	22,623
Two or more races	42,443
Total population	4,041,769

Kentuckians "Middle Aging" and Household Size Decreasing

As shown in the table at left, the median age of Kentuckians has been rising over the last three decennial census periods. Median age rose from 29.1 years in 1980 to 35.9 years in 2000, a 23.4 percent increase over the period. In comparison, median age in the US increased from 30.0 years in 1980 to 35.3 years in 2000, a 17.7 percent increase.

For individual counties, median ages in 2000 range from a low of 27.9 years in Christian County to a high of 41.5 years in Lyon County. All counties posted an increase from 1990.

The data indicate that Kentucky's household size is declining. The average number of persons per household fell from 2.82 persons in 1980 to 2.47 persons in 2000. This compares to the US trend, where household size declined from 2.75 to 2.59 over the same period.

Household sizes in 2000 range from a low of 2.25 persons in Calloway County to a high of 2.85 in Oldham County.

As shown in the figure at upper left, the homeownership rate in Kentucky in 2000 remains at higher levels than those of the nation. After dipping between 1980 and 1990, Kentucky's homeownership rate rebounded to 70.8 percent in 2000.

Future Census Data Releases

The data presented in this newsletter are based on a Demographic Profile extract from Census 2000 Summary File 1. These data are based on responses recorded on the short form questions asked of all households and group quarters.

For more information on Census 2000 data products currently available, see page four.

In 2002, the Census Bureau will begin release of data from the long-form, which will include income, poverty, educational attainment, commuting patterns and housing characteristics.

New Census 2000 Data Products Available

Summary File 1 (SF 1) tabulations are now available and include counts and basic cross-tabulations for age, sex, race, Hispanic or Latino origin, household relationship, and whether the residences are owned or rented. Many tabulations are offered at the block level and higher but for confidentiality purposes, some tabulations are available only at the tract level and higher.

SF 1 Profiles

The Census 2000 SF 1 16-page profile for Kentucky is now available and is posted on our website. The same package is available for counties, cities, census tracts, area development districts, zip codes, and Congressional districts. The price list is shown below.

1-9 profiles	\$6.00 each area
10-49 profiles	\$5.00 each area
50-99 profiles	\$4.00 each area
100+ profiles	\$3.00 each area

Similar comparative data for 1990 can also be obtained. Charges for 1990 data are one-half the price shown for Census 2000 data.

Please call (502) 852-7990 or e-mail to place your order. Hard-copy versions can be mailed or faxed. Profiles can also be e-mailed in a PDF format.

Census 2000 Block Maps

Block maps for counties show the greatest detail and most complete set of geographic information. These large-scale maps depict blocks by displaying the features that form block boundaries and the numbers that identify them. The maps also show the boundaries, names and codes for county sub-divisions, places, census tracts, and block groups.

There are 1,920 map sheets for the entire state; individual counties range from 5 to 57 maps sheets. Each full-color map sheet measures 33" x 36.03".

Census Tract Outline Maps

The Kentucky State Data Center also provides county-based maps which show census tract boundaries and names the underlying features. They also show boundaries, names, and codes for counties, county sub-divisions, and places. These maps are in color and measure 33" x 36.03".

Most counties have only one map sheet; the exceptions are Calloway (2), Christian (3), Daviess (2), Henderson (2), Jefferson (5), Kenton (3), Madison (2), and Warren (2).

How to Order

To order block or census tract outline maps, call the Kentucky State Data Center at (502) 852-7990, or e-mail: ksdc@louisville.edu. Each map costs \$10 per sheet, plus postage and handling; prepayment is not required. Most orders can be filled within 48 working hours.
